

PROJECT: Office Furniture

Location: Cardiff

Value: £200k

Timescale: 4 Weeks

The client

sa.global provides Microsoft Dynamics implementation services and industry-specific solutions to customers in over 80 countries worldwide. They are one of the leading global Microsoft partners and everyday they help over 500,000 Dynamics users worldwide to deliver operational excellence and financial performance for their organizations.

The brief

We were approached by the client to provide a rapid turn around on a project brief which was to design and fit out a newly acquired floor on the 6th floor at One Kingsway, Cardiff.

Project delivery

We worked closely with our client sa.global to produce a design which reflected the company's branding and ways of working through interior design and furniture supply / specification.

The design was strongly influenced by the sa.global colour scheme and pops of colour were used to bring the scheme to life. The 4 week timescale provided a fast and effective turn around that welcomed a successful office refurbishment.

"Can't fault the team Steve. Sophie's designs and colour coordination have landed brilliantly and Stephen has held our hand all the way through. Hats off to John on-site too. Very attentive to our needs."

Simon Drinkwater Head of HR
